Formerly Intervale Compost Products

Seed Starter

Approved for use on
Organic
farms & gardens

A high-performance, compost-based blend formulated with Actino-Iron®

Green Mountain Compost Seed Starter mix is the natural way to maximize seed germination and growth during the plant's most critical stages of development. Specially formulated with Complete Compost, soil builders, and organic fertilizers, our Seed Starter mix will help your plants thrive. Green Mountain Compost Seed Starter mix is approved for use on organic farms and gardens by Vermont Organic Farmers (VOF).

All-natural ingredients include Actino-Iron®

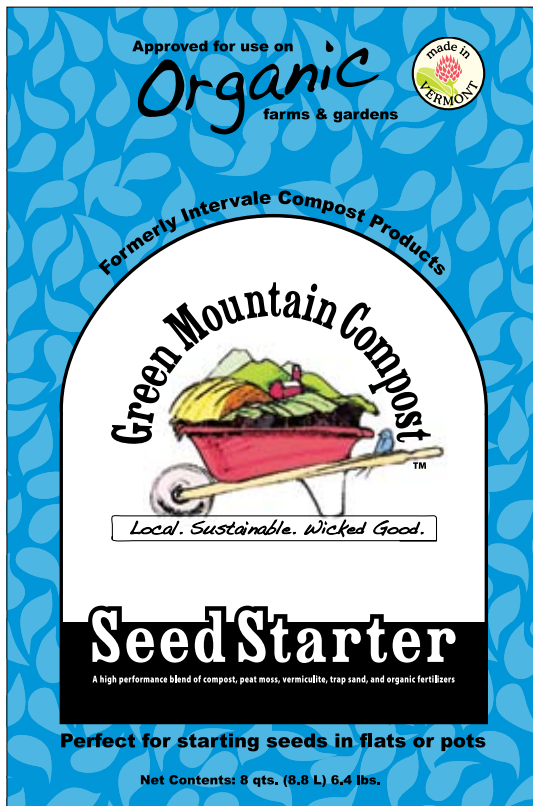

You can feel confident knowing that our Seed Starter mix is carefully and consistently manufactured with all-natural, high-quality ingredients for excellent growth results. Added Actino-Iron® controls and suppresses root diseases and is a source of iron essential for plant growth and development.

Fine texture

The new Green Mountain Compost facility features an aerobic process which yields drier, more finely screened material with superior feel and usability. Our Seed Starter Mix is screened to 3/8".

Seed Starter mix ingredients:

- GMC Complete Compost
- Peat moss
- Vermiculite
- Trap sand
- Blood meal
- Kelp meal
- Alfalfa meal
- Ferrous sulphate
